

Compass USA Volunteer Internship Program

Contact Compass USA if you are interested in having an International Volunteer Help at Your Nonprofit!

Compass USA arranges unpaid volunteer work experiences for qualified international college students. The VIP participants are eager to learn about American business practices and to contribute to the nonprofit operation by volunteering twenty to forty hours per week for 4-12 weeks.

We attempt to place each participant in a situation that meets the needs of both parties. Our international volunteers usually have very strong English language skills and educational backgrounds that will meet the business needs of the nonprofit organization.

If you are interested in becoming a partnering organization with Compass USA please contact our Individual Homestay Director, Cindy Scarcelli at info@compass-usa.net
